

ONLINE VIDEO DOWNLOADING

Using PHP 2.4 &
MySQL 2008

INTRODUCTION

Online video downloading is a website for downloading videos which come in paid and unpaid category.

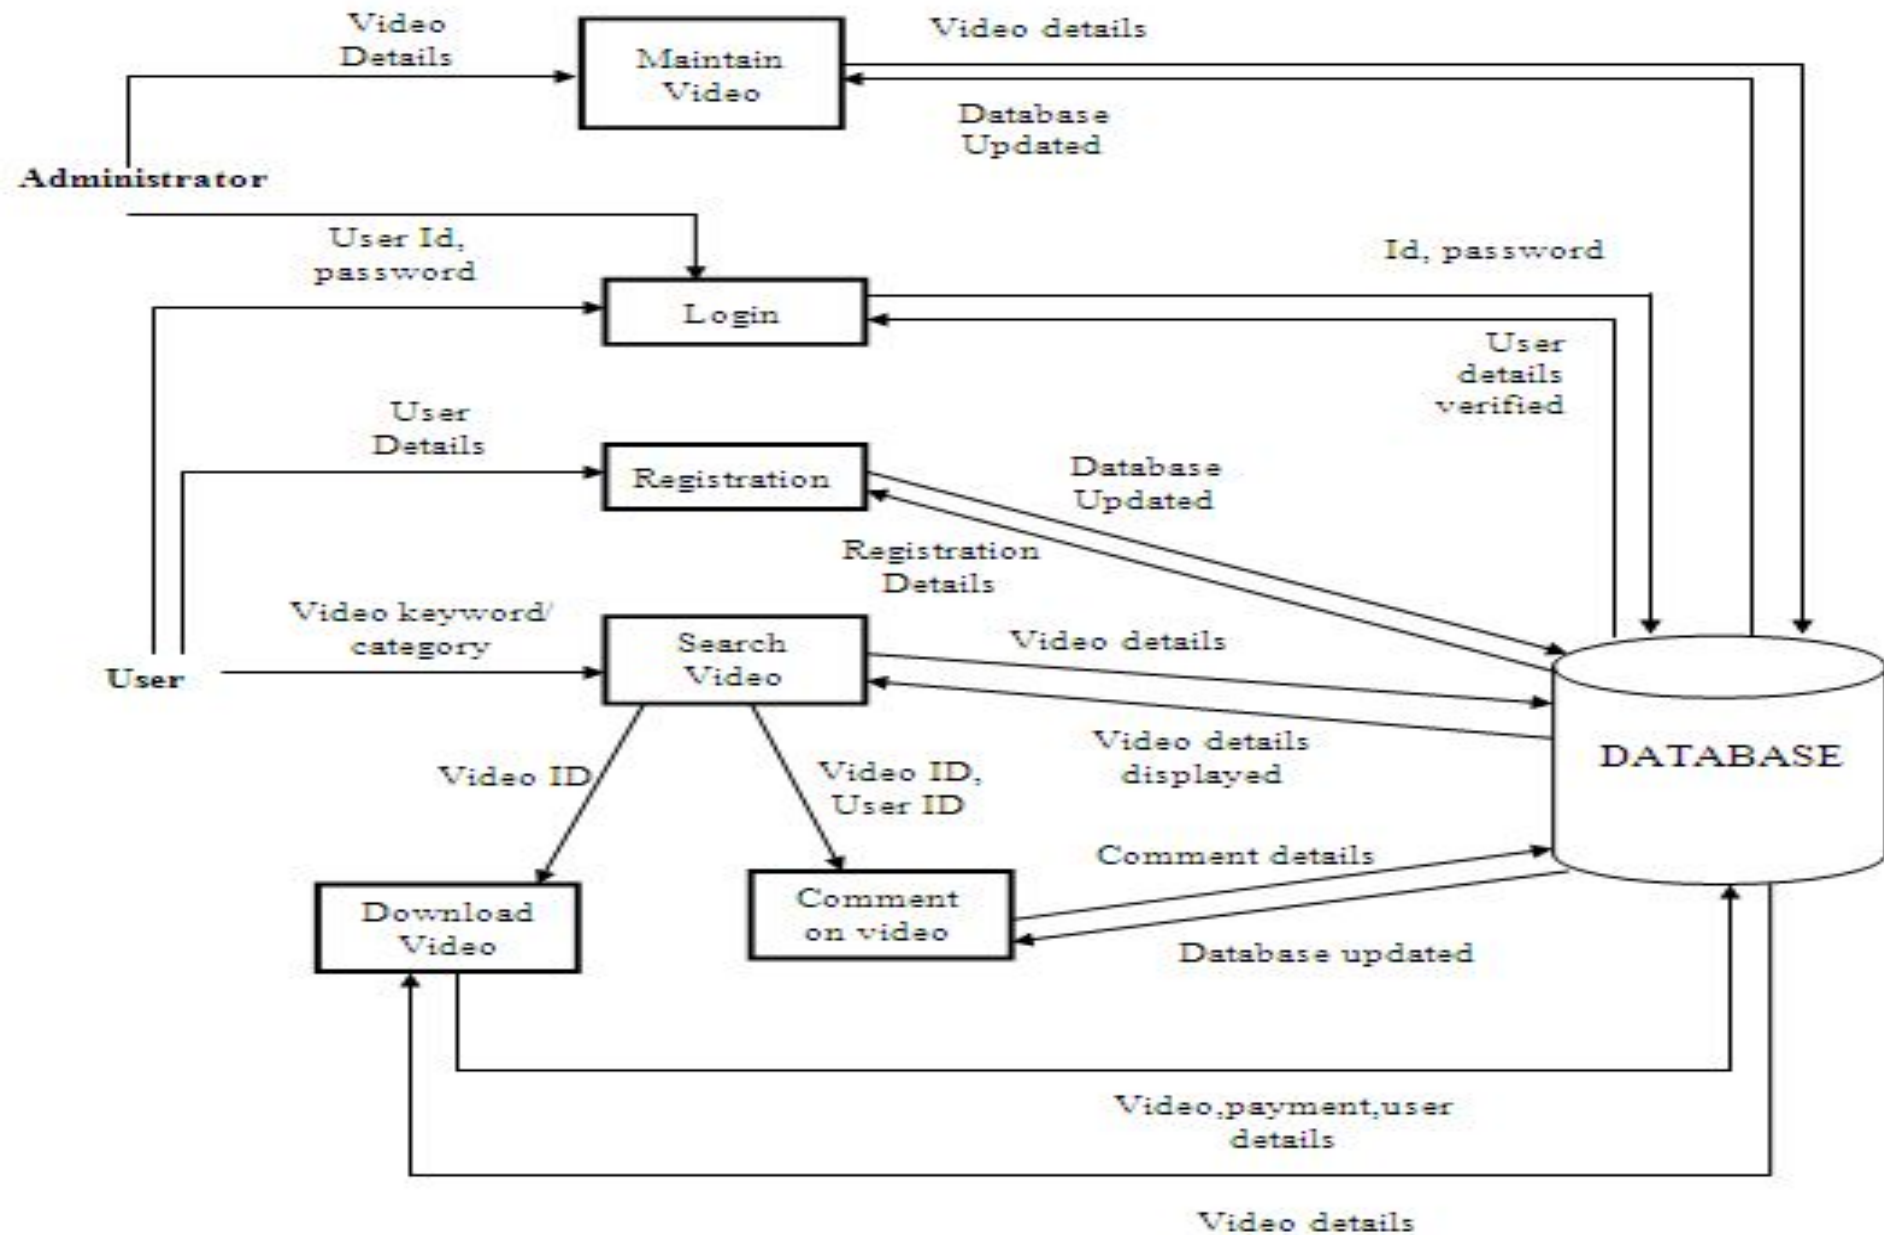

It consists of the following modules :

- Login
- Registration
- Search Video
- Download Video (Payment)
- Maintain Video (Add and Delete Video)
- Comment

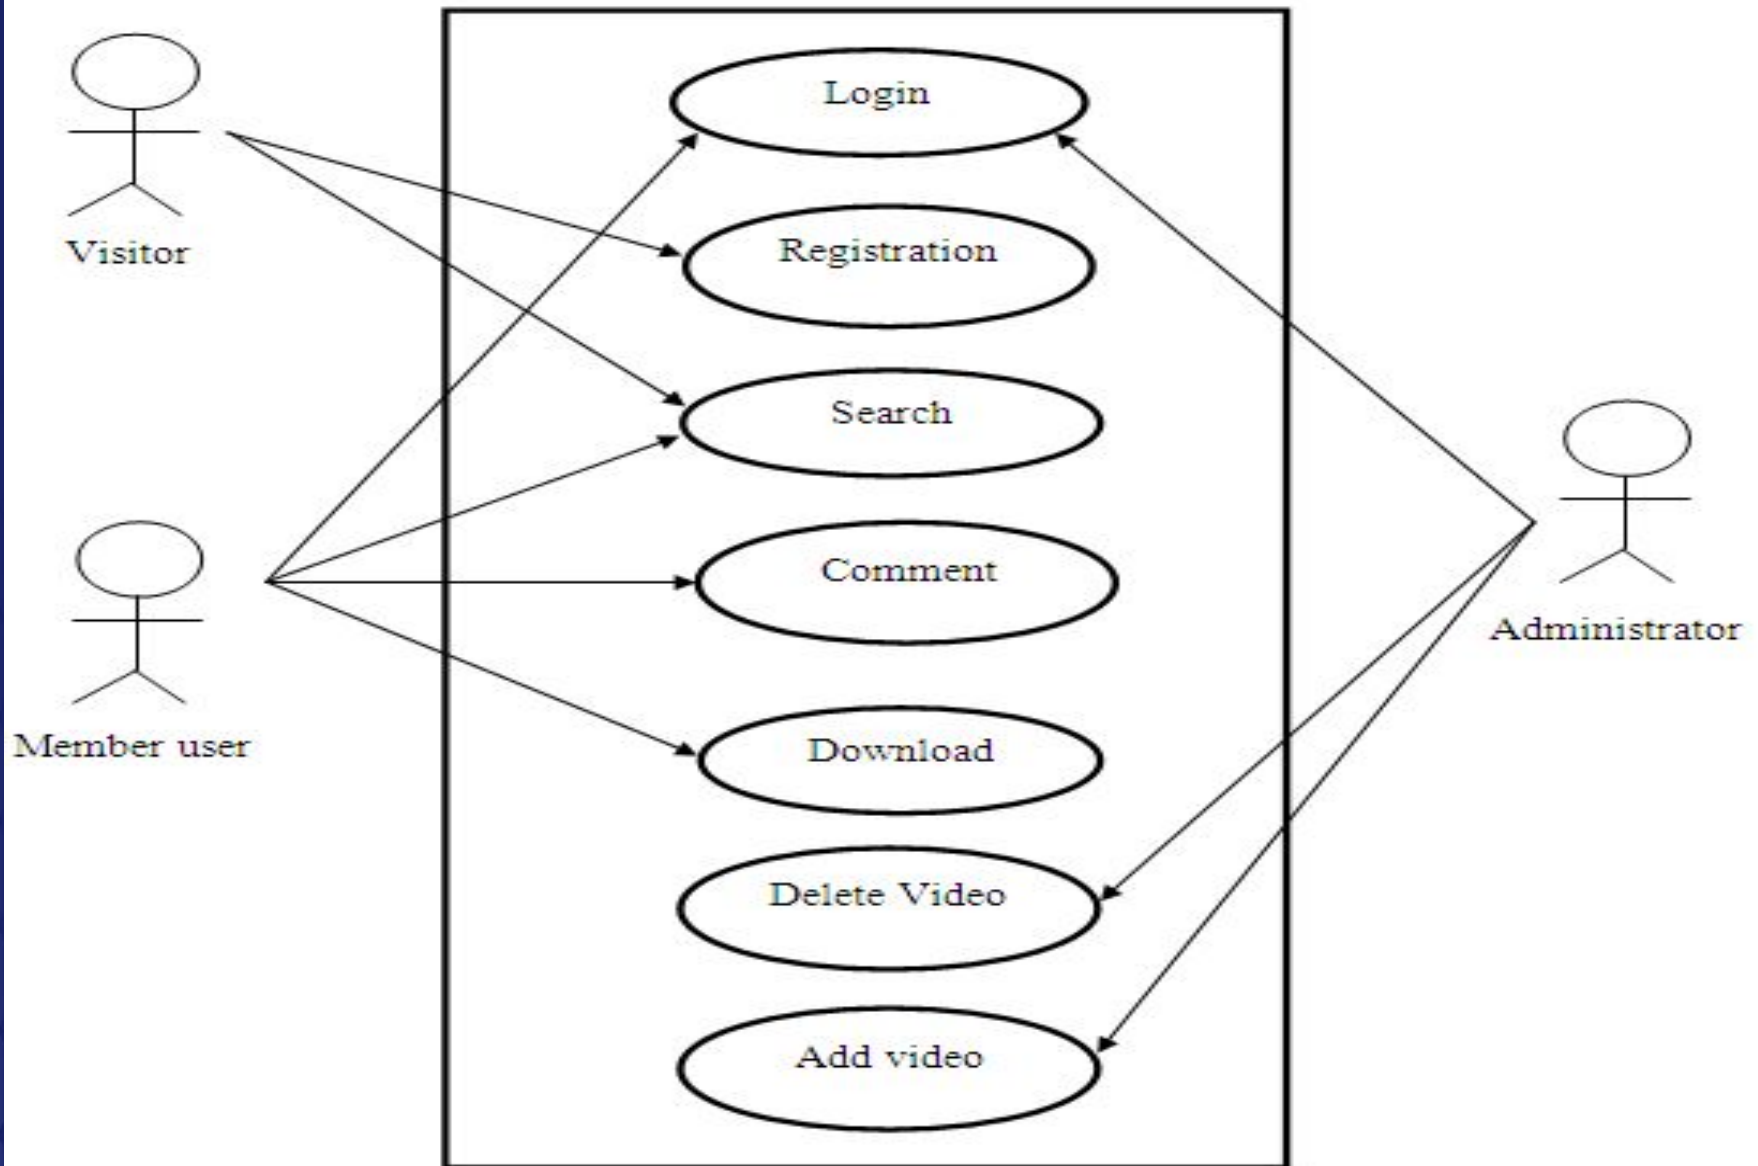

OBJECTIVE

- The objective of this project is to develop a software users can view videos and also download the contents of their like.
- To provide users with an online interactive medium
- Users come across many new things and perspectives by reading the views of many other visitors to the site.
- Beneficial in the field of entertainment
- It provides fast and easy access, easy registration and fast download.
- It allows visitors and registered users to explore things and gain more knowledge about how things work.

A form with a yellow background. It contains a "Category:" label followed by a dropdown menu showing "Movie" and a "Show Video" button. Below that is "Enter the Video ID:" followed by an empty text input field and a "Delete Video" button. A validation message box with an orange exclamation mark icon and the text "Please fill out this field." is positioned below the input field.

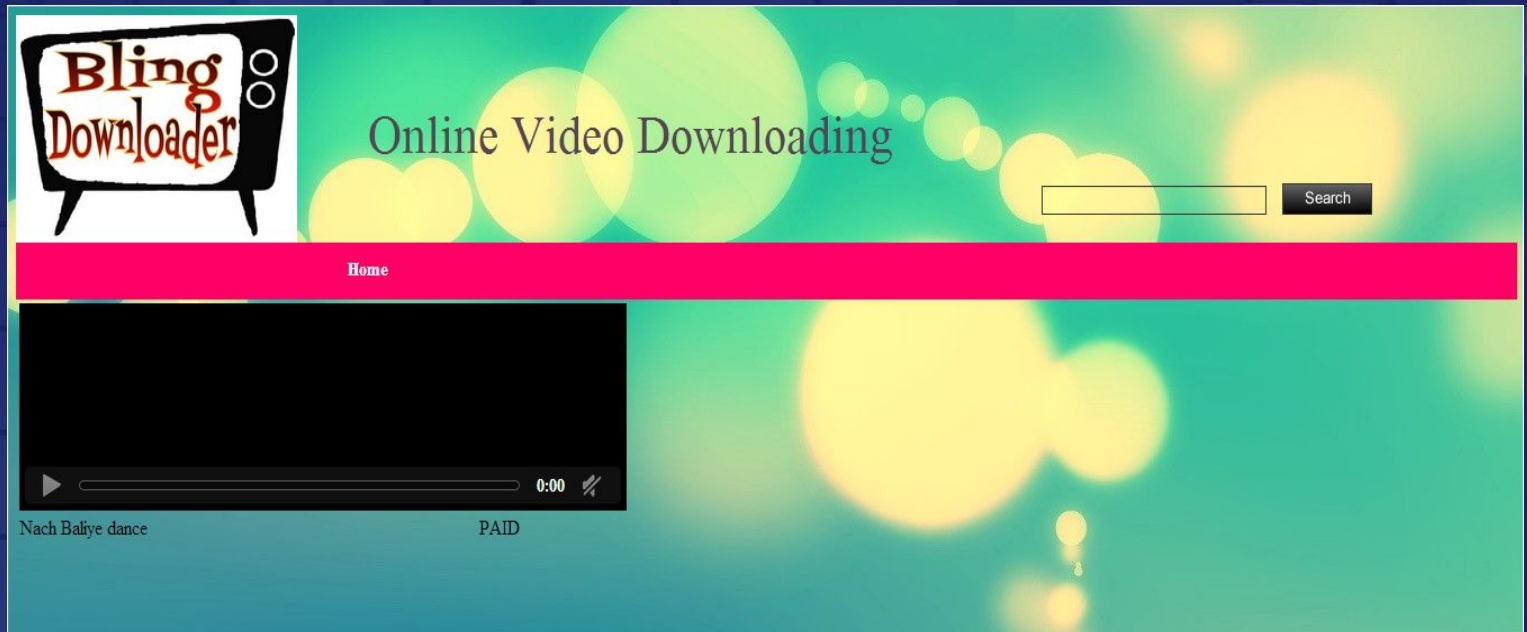

SEARCH VIDEO

Input

A search interface with a light green background featuring yellow and green bokeh. It contains a text input field with the word "dance" and a black "Search" button.

Output

The screenshot shows the "Bling Downloader" website. The header includes the logo (a TV with "Bling Downloader" text) and the title "Online Video Downloading". A search bar with a "Search" button is on the right. A pink navigation bar contains a "Home" link. Below is a video player for "Nach Baliye dance" with a "PAID" label. The player shows a play button, a progress bar at 0:00, and a volume icon.
